 - Proposed parking garage locations
- Policy language applying to pedestrian crosswalk areas.
- Policy language applying to covered bicycle parking

ACTION:

A motion for approval of the update of the Campus Master plan with inclusion of language for the covered bike parking policy and additional policy language and discussion regarding marked crosswalks was set by Anne Wehmeyer and seconded by Scott Washburn. The motion was approved.

UF-638 STUDENT HEALTH CENTER – SCHEMATIC DESIGN

PRESENTING: KEITH HUMPHREYS, PD&C/TIM WILLIAMS, WALKER ARCHITECTS, ROBERT WALPOLE, CHW

DISCUSSION:

The schematic design was presented for the new Student Health Center. Keith Humphreys stated in the last presentation of this project the committee had discussed inclusion of an ambulance lane and an addition of nine (9) parking spaces. Noting logistics are making these two additions difficult. Tim Williams introduced Robert Walpole who gave the presentation for the schematic design. The presentation included and discussed the following:

- Location – West of the O’Connell Center, in the outfield area of the old baseball stadium, southeast of the new Football Training Center.
- Background
- Project Scope
 - Landscape plan – Building will have inset to preserve the oak tree.
 - Entrance and parking at the Football Training Center and behind the O’Connell Center.
 - Utility upgrade work in the area.
- Parking Impacts
 - Removal of three (3) spaces to accommodate the service loading dock and delivery area.
- Accessibility –
 - Building will be accessed at a turn from the football training facility entrance.
 - Nine spaces will be available specifically for the Student Health Care center.
 - Disability access and parking
 - Delivery and service drive – along the south and east sides of the building. Larger deliveries may be coordinated with the O’Connell Center’s loading dock area.
- Emergency Services
 - Ambulances will use the same service drive and loading dock area
 - Alternate vehicle (ex. Firetruck) can use the entrance on the west.
- Bicycle Parking – Located in the front of the building.

Presented as well was the artist rendering from several angles.

The committee discussed the following:

- Disability parking at the building
 - One (1) space at the building. There are three (3) general disabled parking spaces at the current building. Discussed designating more for this project.
 - Consult with EH&S regarding the disability parking.
- Parking on the west side of building –
 - Spaces specifically for the Student Health Center
 - Scooter parking at this new facility
 - Follow-up with UAA
- Traffic and a turn lane in the new facilities
- Crosswalks – Move crosswalk to work with area.

ACTION:

A motion was set by Scott Washburn to approve the schematic design with caveat to follow-up with the committee regarding disability parking and a scooter parking plan. The motion was seconded by Anne Wehmeyer. The motion with the caveat was approved by the committee.
